WORK EXPERIENCE

Software Development Engineer - I (Frontend)

StoryXpress

01/2022 - 09/2023

Remote

StoryXpress is an all-in-one video platform for teams and businesses to create, manage, and share videos for more engagement and conversions

Achievements/Tasks

- Building the frontend of Video Inbox feature on StoryXpress Studio web application in collaboration with a team of frontend and backend developers.
- Developed and implemented an innovative feature for User activity logs and comments for videos within StoryXpress Studio web application, enhancing the overall user experience and facilitating efficient content monitoring in collaboration with backend development team.
- Continuously refined the user interface and experience of the StoryXpress Studio web application through ongoing UI/UX enhancements while proactively resolving frontend bugs and troubleshooting issues.
- Engaged in the development of new features, UI/UX enhancements, optimization and troubleshooting bugs and issues for both the StoryXpress screen recorder chrome extension (80k+ users) and Desktop recorder application, resulting in improved functionality, enhanced stability, and increased user satisfaction.
- Successfully implemented logging functionality with error code segregation at key points in Storyxpress screen recorder extension, resulting in improved error tracking and troubleshooting capabilities. This initiative led to a significant reduction in failure rates by 15%, enhancing the overall stability and reliability of the extension.
- Collaborated in successfully migrating internal NPM React UI components library written in JS and styled components to TypeScript and Tailwind CSS, ensuring smooth adoption and minimizing disruption to ongoing development processes.

Frontend Developer Intern

WE3 Solutions India
